

ABOUT *the* PARTERRE BENCH

Get inspired on Instagram #parterrebench

In the tradition of Newport's three centuries of furniture makers and craftsmen, architects and design standard bearers... the Parterre Bench captures the romance, the singular style and the elegant antecedents of our "City by the Sea." Designed by gardening enthusiast, Bettie Bearden Pardee, for her own Newport garden, the Bench has always been conceived as the most luxurious of gestures - a bespoke piece of furniture crafted to exacting design standards and specifications. Every element is meticulously made to capture the grace of a flower and the flourish of a leaf.
